

February 2019 MOC Examination Quantified Outline

Question Category/Topic	Number of questions	Question Category/Topic	Number of questions
Neurologic Disorders		Amputation	
Stroke	12	Upper Extremity Amputation	2
Spinal Cord Injury	9	Lower Extremity Amputation	2
Acquired Brain Injury	8	Medical Rehabilitation (6%)	
Mononeuropathies & Carpal Tunnel Syndrome	8	Cardiovascular Disorders	5
Polyneuropathies	2	Lymphedema	1
Multiple Sclerosis	2	Pulmonary Disorders	3
Motor Neuron Disease	2	Cancer	3
Acute Inflammatory Demyelinating Polyneuropathy	3	Rehabilitation Problems & Outcomes (13%)	
Cerebral Palsy	1	Spasticity	3
Plexopathy	2	Contracture	2
Radiculopathy	4	Seizures	2
Musculoskeletal Medicine		Abnormal Gait	2
Rheumatoid Arthritis	2	Bed Rest/Deconditioning	1
Osteoarthritis	4	Heterotopic Ossification	1
Spondyloarthropathy	1	Speech & Language Disorders	1
Acute Trauma (incl. sprains/strains)	13	Cognitive Disorders (incl. dementia/pseudodementia, disorders of consciousness)	3
Chronic Trauma/Overuse (incl. tendinitis/bursitis)	13	Sleep Disorders	2
Complex Regional Pain Syndrome	3	Substance Abuse	1
Fibromyalgia/Myofascial Pain	4	Pain	5
Fractures (acute and chronic)	4	Basic Sciences (incl. instrumentation, ethics, typical development, physical exam techniques and findings)	13
Osteoporosis	2		
Spinal Disorders (incl. low back pain)	7		
Orthopedics/Rheumatology	2		

<i>Focus of Questions</i>	
<i>Patient evaluation and diagnosis</i>	35%
<i>Electrodiagnosis</i>	11%
<i>Patient management</i>	41%
<i>Equipment and assistive technology</i>	5%
<i>Applied sciences</i>	8%
